CAREER OBJECTIVE

Highly motivated B.Tech Computer Science student at BIT Mesra with strong academic performance and solid foundations in data structures, core programming, and enterprise application development. Seeking opportunities to leverage analytical thinking, problem-solving skills, and industry experience.

EDUCATION

- **B.Tech in Computer Science & Engineering** | Birla Institute of Technology (BIT), Mesra
  - *Duration:* 2024 – 2028 (Currently 5th Semester)
  - *CGPA:* 9.01/10 (Up to 4th. Semester)
- **Senior Secondary (Class XII)** | Delhi Public School, Ranchi | 2024
  - *Percentage: 90%*
- **Secondary (Class X)** | Delhi Public School, Ranchi | 2022
  - *Percentage: 95%*

TECHNICAL EXPERIENCE

PwC | *Technical Intern*

June 2026 – July 2026

- Gained hands-on professional experience with SAP S/4HANA ABAP programming environments.
- Developed backend solutions and database structures using Function Modules and **BAPIs** (Business Application Programming Interfaces).
- Designed enterprise-level reporting and user interfaces utilizing ALV (ABAP List Viewer) reports and Module Pool programming.
- Built and customized print forms using Smart Forms and implemented business logic modifications via ABAP Enhancements.
- Applied advanced modularization techniques to optimize performance, clean codebase architecture, and maximize code reusability.

TECHNICAL SKILLS

- Programming: Python, C++, Java, SQL, SAP ABAP, JavaScript, HTML, CSS
- Databases & Tools: MySQL, SAP S/4HANA, Git, GitHub, MS Excel
- Core Computer Science: Data Structures & Algorithms, Database Management Systems (DBMS), Operating Systems (OS), Object-Oriented Programming (OOP)

PROJECTS

- **Sorting Algorithm Visualizer** | *HTML, CSS, JavaScript* |
  - Developed an interactive web application to visualize structural sorting behaviors in real-time.
  - Implemented Bubble Sort, Selection Sort, and Insertion Sort with animated bar graphs representing array operations.
  - Utilized JavaScript asynchronous delays and DOM manipulation to visually display real-time element comparisons and swaps.
  -
- **Tic Tac Toe Web Application** | *HTML, CSS, JavaScript*|
  - Created a browser-based strategy game built with native JavaScript DOM manipulation.
  - Programmed client-side matrix logic for turn switching, win conditions, and tie detection.
  - Designed a fully responsive UI utilizing custom CSS animations and hover transitions.

ACHIEVEMENTS

- **Competitive Programming:** Solved 100+ algorithmic problems on Codeforces.
- **Game Development:** Built an interactive game utilizing the GDevelop5 engine.
- **Academic Excellence:** Consistently maintained a top-tier CGPA of 9.01/10 at BIT Mesra.

LEADERSHIP & EXTRA-CURRICULAR ACTIVITIES

- Member : Quizzing & Debating Club, BIT Mesra.
- Actively participated in technical panels, hackathons, and academic discussions.
- Volunteered in institutional event organization, logistics, and student coordination.

SOFT SKILLS

- Analytical & Logical Thinking | Structured Problem Solving
- Professional Communication | Time Management
